

National Weather Service in Gray, Maine Seeks Students for Summer Volunteer Internship

Description - The National Weather Service in Gray, Maine seeks motivated students that desire to learn more about the operations in a local weather service office. In this internship, students will learn many aspects of the day-to-day operations of the office, including warning operations and forecast creation as well as observation and product quality control. In addition, students will have the opportunity to participate in office research and outreach. This will give students the opportunity to determine whether a career with the National Weather Service may be right for them.

In Person vs. Remote - It is currently expected that this volunteer internship will be conducted inperson at the NWS office in Gray. If COVID-19 protocols change, it is possible that some of the work for this internship will be done remotely.

Length of Internship - Averages two to three days per week (~10-20 hours) starting in the second half of May and continuing through early August. This is an *unpaid* internship.

Eligibility - At least a half-time student pursuing an undergraduate (or graduate) degree in meteorology or atmospheric science that has (by summer 2022) completed their sophomore or junior year.

What we need from you - A cover letter stating your interest in the internship and why we should select you. In addition, please send your resume that includes the coursework you have completed and any related experience. Please include at least two references. Finally, please include a copy of your most recent transcript. Unofficial copies are acceptable.

Deadline - Friday, February 24th, 2023

How you will be chosen - Applicants will be selected based on a combination of coursework, references, resume, cover letter, and a potential phone interview.

Please send your information to: justin.arnott@noaa.gov

We look forward to your application!

Justin Arnott Science and Operations Officer National Weather Service Portland / Gray, Maine
